

ALARM TESTING PROCEDURES

- 1.) NOTIFY THE CENTRAL STATION @ 330-239-1229 THAT YOU WANT TO TEST YOUR SYSTEM.**

(MAKE SURE YOU HAVE YOUR ALARM ACCOUNT NUMBER AND PASS CODE READY) IF YOU DO NOT NOTIFY THE CENTRAL STATION FIRST, THE POLICE MAY BE NEEDLESSLY DISPATCHED.

- 2.) ARM YOUR SYSTEM IN THE USUAL FASHION WITH YOUR CODE.**
- 3.) WAIT FOR THE EXIT DELAY ON YOUR SYSTEM TO EXPIRE** (USUALLY ABOUT 1 MINUTE WILL BE SUFFICIENT). **THEN OPEN A PROTECTED DOOR OR WINDOW TO ACTIVATE THE SYSTEM.** (REMEMBER TO WAIT UNTIL THE ENTRANCE DELAY EXPIRES AND YOU HEAR THE SIRENS).
- 4.) TURN OFF THE SIRENS WITH YOUR CODE, THEN CALL THE CENTRAL STATION @ 330-239-1229 TO CONFIRM THAT THEY RECEIVED THE TEST SIGNAL.**

IF ANY PROBLEMS ARE DISCOVERED IN THE OPERATION OF THE SYSTEM, IMMEDIATELY NOTIFY FBN SYSTEMS TO ARRANGE FOR A REPAIR SERVICE CALL TO CORRECT THE CONDITION.
